

```
felm(visitors_percap_cr ~ z_score_high |  
      census_block_group + monthweekyr, data = data)
```

May–Sept

Fixed Effects Slope for all CBGs May–Sept by MI group

based on percentile of median MI for each CBG

<5%, 5–25%, 25–50%, 75–95%, >95%

```
felm(visitors_percap_cr ~ z_score_high:as.factor(mi_group)  
| census_block_group + monthweekyr, data = data)
```

2020 ONLY

```
felm(visitors_percap_cr ~ z_score_high |  
      census_block_group + monthweek, data = data)
```

May–Sept

Fixed Effects Slope for all CBGs May–Sept by MI group 2020 ONLY

based on percentile of median MI for each CBG

<5%, 5–25%, 25–50%, 75–95%, >95%

```
felm(visitors_percap_cr ~ z_score_high:as.factor(mi_group)  
| census_block_group + monthweek, data = data)
```

2021 ONLY

```
felm(visitors_percap_cr ~ z_score_high |  
      census_block_group + monthweek, data = data)
```

May–Sept

Fixed Effects Slope for all CBGs May–Sept by MI group 2021 ONLY

based on percentile of median MI for each CBG bottom

<5%, 5–25%, 25–50%, 75–95%, >95%

```
felm(visitors_percap_cr ~ z_score_high:as.factor(mi_group)  
| census_block_group + monthweek, data = data)
```

```
felm(visitors_percap_cr ~ z_score_high |  
      census_block_group + monthweekyr, data = data)
```

May–Sept >5% CBGs above their own 95th percentile

```
felm(visitors_percap_cr ~ z_score_high |  
      census_block_group + monthweekyr, data = data)
```

May–Sept >5% CBGs above Bay Area 95th percentile
